MPC-6 / MPCW-6 Scoreboard Controller

The **MPC-6** and **MPCW-6** are the same multi-sport scoreboard controller — the MPC-6 connects to your scoreboard with a cable, and the MPCW-6 adds a wireless system key and receiver in place of that cable. Day-to-day operation (setting the score, clock, fouls, and every other in-game function) is identical between the two, so every sport manual on this page applies whether your controller is wired or wireless.

Note: Look at the controller itself, or your original order paperwork, if you're not sure which one you have. If it has a wireless system key and pairs to a receiver at the scoreboard, it's the MPCW-6.

Choose Your Sport Manual

Each sport has its own manual covering the keypad overlay, options menu, and troubleshooting for that sport. Each manual also includes a model-code table so you can confirm it matches your scoreboard.

SPORT	MANUAL
Baseball / Softball	MPC-6 Baseball/Softball Manual
Basketball	MPC-6 Basketball Manual
Cricket	MPC-6 Cricket Manual
Football	MPC-6 Football Manual
Hockey	MPC-6 Hockey Manual
Soccer	MPC-6 Soccer Manual
Swimming	MPC-6 Swimming Manual
Track	MPC-6 Track Manual
Volleyball	MPC-6 Volleyball Manual
Wrestling	MPC-6 Wrestling Manual

Setting Up Wireless (MPCW-6 Only)

If your controller is a wireless MPCW-6, receiver pairing is handled separately from sport setup — most commonly needed after a repair or when replacing a receiver or control. See the [MPCW-6 Control Programming Instructions](#) for the full receiver pairing procedure.

CAUTION

CAUTION: The wireless programming procedure involves specific safety steps around the system key and receivers. Follow the linked guide in order — don't skip ahead.

Accessories

FEATURE	MANUAL
Electronic Team Names (ETN) — display team names on the scoreboard	MPC-6 Electronic Team Names (ETN) Setup
Football Seconds Timer — external DGT-5 / 3020 / DGT-2 timer display	MPC-6 Football Seconds Timer
Reset Clock Switch (RCS-7) — shot clock / delay-of-game reset switch	RCS-7 Operator Manual — also compatible with MPC-5/MPCW-5, not MPC-6-exclusive
